Navsupply's management, aiming at **SAFETY, ENVIRONMENT PROTECTION, QUALITY, TERM AND COSTS** establishes as commitments:

- Seek customer satisfaction by meeting their requirements quickly, accurately and constantly communicating;
- Support the company's growth, through the continuous improvement of the Integrated Management System and technological solutions;
- Train and develop employees to achieve their goals and the organization's goals in a safe environment;
- Develop partnership relationships with qualified suppliers;
- Comply with all rules and laws that govern the business;
- Provide guidelines for the use and framework of the occupational safety and health (OSH) management system;
- Ensuring safe and healthy workplaces, preventing work-related injuries and illnesses, as well as improving proactivity and performance related to occupational health and safety;
- Allow the participation and consultation of the employee, as well as their opinion about their health and work conditions;
- Protect the environment, acting to prevent environmental impacts on soil, water and air.
